Professional Summary

Commercial IT PM / Business Analyst hybrid with 14 years delivering business-facing IT systems for European and American MNCs in China. Single point of contact translating ambiguous business demands into clear requirements, UAT acceptance criteria, and phased delivery plans — across quotation, origination, approval, master-data, and database systems. Consistent track record of bridging HQ architecture teams and local business stakeholders, with measurable adoption outcomes.

Certifications: PMP | ITIL | Lean Six Sigma Yellow Belt | LLM Apps Dev Engineer

Work Experience

BPCE Equipment Solutions (BPCE Group) — IT Project Manager, OPS/IT | Reports to: COO **Nov 2022 – Present**

- **End-to-end commercial IT delivery with integrated BA ownership** — Sole PM/BA bridge between China business (Sales / Ops / Finance) and European HQ architects across 3 core systems (Quotation, Origination, Database). Led requirements discovery and prioritization, BRD / FRD authoring, AS-IS → TO-BE process modeling, and UAT design with requirements traceability; owned full lifecycle from business case → phased delivery → cutover → hypercare; streamlined approval flow from 3 days to 4 hours.
- **BPCE Group's first full global-entity go-live** — Zero critical production defects, 100% business adoption within 2 months; adopted as the replicable global template; secured Phase 2 HQ funding and drove a ~70% operational cost-reduction roadmap. Zero compliance violations under China banking regulators.
- **AI-assisted requirement and documentation workflow** — Codified business rules and decision history into a structured knowledge base, grounding AI tools in real business context; 20–25% efficiency gain on requirement analysis and stakeholder documentation.

NCR Corporation — Program Manager, PMO **Sep 2016 – Nov 2022**

- **$50M+ IT delivery portfolio, 15+ concurrent initiatives across Greater China** — Ranked #1 APAC program-manager ROI for 3 consecutive years; 20+ production releases with zero major deployment failure; zero financial-data compliance incidents across a 3-year audit window.
- **Cross-client BA & business-process optimization** — Led KA transition via causal-matrix analysis and structured transformation playbook → −5% depot cost, −20% labor cost; EPM rollout drove 30% labor savings; governed data consistency and process alignment across CRM, ERP, and analytics systems.
- **Stakeholder leadership & vendor management** — SME in RFP / QBR forums; built cross-functional channels across Sales, Operations, and Engineering; ran vendor scorecards and SLA analytics.

WuXi AppTec — Senior Project Manager | **May 2015 – Aug 2016** Built integrated progress tracking across multiple laboratories with real-time feedback loops to business units and clients.

Hertz RAC — Customer Care Supervisor | **Dec 2011 – Apr 2015** Led team restructuring during M&A integration — redesigned resource allocation and KPI framework; co-developed the company's first standardized after-service issue handbook through global collaboration.
