Professional Summary

Seasoned Program and Project Management professional specializing in cross-border IT delivery and portfolio governance, with a track record of driving efficiency optimization for a \$50M+ project portfolio and achieving 3 consecutive years of top-ranked APAC ROI. Core capabilities span end-to-end program rollout, stakeholder engagement across global/regional/local levels, project framing and risk management, and executive-level communication — translating business requirements into structured delivery plans, leading cross-functional alignment, and delivering sharp, insight-driven presentations to senior leadership for key decision-making. Delivered among BPCE's first complete global-system rollouts with high business adoption, with deployment approach adopted as global replicable template.

Work Experience

BPCE ES (Groupe BPCE, France) | IT PM

Nov 2022 – Present

China IT project lead, orchestrating new-system rollout and digital transformation from the program management perspective. Reporting to COO.

- Framed rollout approach for 3 core systems — defining project plan, R&R, milestones, meeting cadence, and delivery governance — achieved the first complete global rollouts with high business adoption, no major defects, and deployment approach adopted as global replicable template
- Engaged global, zone, and local stakeholders to position China's requirements as HQ KPI accelerator through structured business case advocacy, securing engineering resources and second-phase funding for a small-share entity; delivered regular status reporting and executive presentations to global leadership driving alignment
- Identified project risks and removed blocking points across cross-functional teams; owned dual-dimension IT budget governance (P&L + cash-out tracking), quantifying build-cost vs. business-benefit trade-offs to inform HQ resource prioritization
- Built structured PM knowledge base with technology tools (AI/Agent) for scenario analysis and data-driven project retrospectives; designed low-code project data hub covering requirements, testing, risks, changes, and milestones end-to-end

NCR Corporation | Program Manager, PMO

Sep 2016 – Nov 2022

Program Manager, PMO | Sep 2016 – Nov 2022 (6 years 2 months)

Governed \$50M+ IT delivery portfolio efficiency and resource consolidation across Greater China, overseeing two major KA accounts and several mid-sized clients.

- Governed resource allocation across two major KA accounts and mid-sized client portfolios, achieving 3 consecutive years (2019–2021) of top-ranked APAC portfolio ROI through cross-customer requirement consolidation and engineering capacity optimization

- Led EPM system rollout in China without additional headcount, achieving 95% user adoption within 3 months and no major data migration incidents; led Yum! East China business transformation (5% warehouse cost savings, 20% labor reduction, playbook replicated to 3 additional accounts)
- Maintained 20+ production releases with no major deployment failures and 3-year audit period with no major financial compliance incidents; served as cross-portfolio expert in RFP and QBR forums, preparing executive decks and delivering project status to senior stakeholders

WuXi AppTec | Senior Project Manager, Commercial Operations

May 2015 – Aug 2016

Managed cross-functional projects balancing laboratory data sharing with IP protection standards; established Lean Six Sigma problem-solving framework.

Hertz RAC | Customer Care Supervisor

Dec 2011 – Apr 2015

Led customer service team during global restructuring. Developed first standardized after-sales issue handbook through global collaboration; established vendor scorecard and SLA analysis framework.
