Professional Summary

IT-business relationship manager bridging China operations and European HQ across banking, manufacturing, and regulated R&D environments. Serves as the single senior interface between local business leadership and global IT — translating commercial strategy into prioritized IT demand, building business cases that secure HQ investment, and governing end-to-end delivery against financial, compliance, and outcome commitments. Drives cross-border digital transformation and AI-augmented delivery in highly regulated settings.

Professional Experience

BPCE ES (Groupe BPCE, France) | IT PM Reports to: COO

Nov 2022 – Present

Primary IT interface for China and EU HQ — single point of accountability from strategic demand shaping and business case through funding approval, delivery oversight, and run-state handover.

- Strategic business partnership. Trusted advisor to China COO and business leadership; translates regional commercial strategy into prioritized IT demand. Drives alignment with global IT on scope, outcomes, and priorities through structured negotiation and executive governance. Conducts monthly/quarterly IT performance reviews with senior stakeholders.
- End-to-end IT accountability. Full ownership of the China IT portfolio — solution design alignment with global architecture, delivery management, vendor coordination, lifecycle governance. Delivered the first complete global system go-live; China deployment subsequently adopted as the worldwide replicable template, setting standards for all other entities.
- Investment & budget governance. Owns dual-dimension IT budget (P&L + cash-out) with quantified build-vs-benefit analysis driving HQ prioritization decisions. Independently built the business case securing Phase 2 funding for China — the smallest global entity — under competitive cost-allocation.
- AI-augmented delivery & regulatory compliance. Built a structured PM knowledge base (decision frameworks, case library, business rules) improving delivery efficiency 20–25%. Led PIPL/GDPR dual-jurisdiction compliance for overseas-hosted platforms — delivered PIPIA, end-to-end data mapping — sustaining alignment across 2 years with zero regulatory incidents.

NCR Corporation | Program Manager, PMO

Sep 2016 – Nov 2022

- Managed \$50M+ IT delivery portfolio across 15+ concurrent projects in Greater China. Cross-portfolio lead covering two major industry KA clients.
- Portfolio governance & outcome delivery. Consolidated shared requirements across accounts to eliminate redundancy. Achieved #1 APAC ROI three consecutive years (2019–2021). Led EPM system go-live delivering 30% resource efficiency. 20+ production releases with zero major failures; zero compliance incidents across 3-year audit period.
- Global program management & vendor governance. Served as IT SME in RFP evaluations and QBRs across multiple accounts. Led cross-functional alignment across sales, operations, development, and multiple external vendors. Transformation framework replicated to 3 additional accounts.

WuXi AppTec | Senior Project Manager, Commercial Operations

May 2015 – Aug 2016

Cross-functional IT and laboratory projects in a regulated pharmaceutical R&D environment. Balanced data-sharing requirements with IP protection standards across multi-stakeholder teams. Applied Lean Six Sigma frameworks for structured problem-solving.

Hertz RAC | Customer Care Supervisor

Dec 2011 – Apr 2015

Developed the first standardized after-sales issue handbook through global cross-market collaboration. Established vendor scorecard and SLA analysis frameworks, driving service standardization across multiple territories.

Education & Certifications
