Professional Summary

IT business partner and solution leader with 14 years bridging China operations and global HQ across banking, manufacturing, and regulated R&D environments. Serves as the single senior interface between business leadership and IT — translating commercial strategy into scalable solutions, building business cases that secure investment, and governing delivery against ROI, compliance, and outcome commitments. Drives AI-augmented innovation and cross-border digital transformation in large MNC settings.

Professional Experience

BPCE ES (Groupe BPCE, France) | IT PM Reports to: COO

Nov 2022 – Present

Primary IT interface for China and EU HQ — single point of accountability from demand shaping, solution design, and business case through delivery oversight and run-state handover.

- Strategic business partnership. Trusted advisor to China COO and business leadership; translates regional commercial strategy into prioritized IT demand and solution requirements. Drives alignment with global IT on architecture, scope, and outcomes through structured negotiation and executive governance. Conducts monthly/quarterly IT performance reviews with senior stakeholders.
- Solution design & end-to-end delivery. Full ownership of the China IT portfolio — solution analysis and design aligned with global architecture, delivery management, vendor coordination, and lifecycle governance. Delivered the first complete global system go-live, subsequently adopted as the worldwide replicable template.
- Investment governance & ROI tracking. Owns dual-dimension IT budget (P&L + cash-out) with quantified build-vs-benefit analysis driving HQ prioritization. Independently built the business case securing Phase 2 funding for China — the smallest global entity — under competitive cost-allocation. Tracks ROI across cost, benefit, and risk dimensions.
- AI-augmented innovation & compliance. Pioneered the systematic integration of AI tools into delivery workflows — built a structured knowledge base (decision frameworks, case library, business rules) improving delivery efficiency 20–25%. Led PIPL/GDPR dual-jurisdiction compliance for overseas-hosted platforms with zero regulatory incidents.

NCR Corporation | Program Manager, PMO

Sep 2016 – Nov 2022

Managed \$50M+ IT delivery portfolio across 15+ concurrent projects in Greater China. Cross-portfolio lead covering two major industry KA clients.

- Portfolio governance & ROI maximization. Consolidated shared requirements across accounts to eliminate redundancy. Achieved #1 APAC ROI three consecutive years (2019–2021). Led EPM system go-live delivering 30% resource efficiency. 20+ production releases with zero major failures; zero compliance incidents across 3-year audit period.
- Vendor & stakeholder governance. Served as IT SME in RFP evaluations and QBRs across multiple accounts. Led cross-functional alignment across sales, operations, development, and external vendors. Transformation framework replicated to 3 additional accounts.

WuXi AppTec | Senior Project Manager, Commercial Operations

May 2015 – Aug 2016

Cross-functional IT and laboratory projects in a regulated pharmaceutical R&D environment. Balanced data-sharing requirements with IP protection standards across multi-stakeholder teams.

Hertz RAC | Customer Care Supervisor

Dec 2011 – Apr 2015

Developed the first standardized after-sales issue handbook through global cross-market collaboration. Established vendor scorecard and SLA analysis frameworks.

Education & Certifications

University of Wollongong, Australia — Master of International Business | 2010 – 2011
